Vistana Project Honored By *The Building of America*

SAN ANTONIO- September 10, 2010 – CF Jordan Construction, a leading Texas based commercial construction and construction management company, was selected to have their San Antonio project, The Vistana, featured in *The Building of America*, a 15-year compilation of the nation’s most important and unique construction and renovation projects and the companies responsible for their planning, designs, engineering, construction and finishes.

The award honors the country’s most innovative, unique and challenging projects. The Vistana was selected by *The Building of America* as its August featured project. The selected projects are particularly noteworthy and/or give back to their respective communities.

Darren Woody, President and CEO of CF Jordan Construction stated, “This is a great honor. The Vistana was a great project to work on with all of our partners. Our team was outstanding and did a stellar job finding solutions to all the challenges. It’s a wonderful accomplishment.”

The Vistana, a new mixed-use development brings vibrancy to the San Antonio area with its 14-story 530,000 square-foot art-deco building. The Vistana adjoins Milam Park and historic Market Square and offers 247 units, retail, and a 491-car garage and storage rental. Some of the challenges CF Jordan faced and defeated were sequencing construction activities within the restrictions of a tight site.

More on the Vistana can be viewed at *The Building of America* website at:
